SYPRIAN AI DIGITAL VAULT • OFFICIAL EXECUTIVE EDITION

The 60-Second AI Cost-Slasher Blueprint & Viral YouTube Script Template

How to Stop Paying $200+/Month for Overlapping AI Subscriptions & Turn Plain-English AI Into Daily Digital Income.

Authored by Dr. Ronald Brian Cornish, M.Ed., D.Div. | Founder, Syprian AI & DocAiRC (ai.syprian.com)

1. The 93-Octane vs. 87-Regular Rule (Stop Burning Subscription Cash)

91% of professionals overpay for AI because they treat every question like a $250 patent-leather dress shoe occasion. When you run routine summaries, emails, brainstorming, or lesson bell-ringers on $20-$200/month frontier tiers, it is like pumping $5.50 racing fuel into a commuter sedan.

Inside Syprian AI (ai.syprian.com), you route 85% of daily tasks to 87-Regular Workhorses (DeepSeek, Qwen, Llama, Kimi) for pennies—and save 93-Octane Frontier Giants (Claude, GPT, Gemini, Perplexity) strictly for the 15% high-stakes legal, clinical, grant, or boardroom decisions.

Fuel Tier	Everyday Analogy	When to Use (Examples)	Monthly Cost Impact
93-Octane Premium	$250 Dress Shoes / $150 Steakhouse	Federal/State Grants, Legal Contracts, IEPs, Final Audit, Architecture	15% of tasks (Complex via Syprian in
87-Regular Unleaded	Everyday Sneakers / Home-Cooked Plate	Daily Emails, Summaries, Social Captions, Quizzes, Basic Coding, SOPs	85% of tasks ($0.00 to $0.5 — saves $

2. The High-Converting YouTube & Shorts Script Formula (Goldfish-Approved)

Use this exact 5-step script structure to turn 8-minute YouTube videos and 58-second Shorts into automated digital product sales 24/7:

```
[0:00 - 0:15] THE 1-SECOND SCROLLER HOOK:
'Most [Audience] are wasting $[X] every month on [Painful Mistake]—and after testing [Proof
Number], here are the [3 or 4] exact ways to fix it today.'

[0:15 - 1:15] THE PLAIN-ENGLISH ANALOGY (93 vs 87 Gas / Shoes):
Translate technical jargon into an everyday kitchen-table comparison so a tired viewer at 9 PM
immediately nods 'Yes!'

[1:15 - 6:30] THE VALUE LADDER BREAKDOWN:
Walk through 3-4 actionable steps, giving honest Pros & Cons for each so trust skyrockets.

[6:30 - 8:00] THE SOFT LEAD-MAGNET CALLOUT:
'Want my free 60-second prescription bot to pick the right setup for you? Grab it free at
ai.syprian.com/blueprint.'

[8:00 - END] THE MRR BRIDGE:
Show why recurring automation beats starting every month at $0—and invite viewers into
